# DIRECTOR'S MESSAGE

GEORGE T. EDWARDS, Foothill Region Director 2020-2021

Good morning Jean,

Happy Valentine's Day everyone!! Wishing all of you a beautiful day filled with all the Love and happiness you deserve.

Jim and Sabrina did a Hamburgers & Hotrods' Pod Cast. The Pod Cast is very interesting and informative. They always do a great job on this project.

Well for now keep going along and be safe.

George Edwards  
Director

"I hope it tastes good. It's for the cat."

Of course, we wouldn't try to tell you that Camaro is another Corvette.

Corvette is a sports car. Camaro is a sporty car. And you don't have to be a professional driver to know what a difference that usually makes.

What we are telling you is: For the money, Camaro comes surprisingly close. Certainly closer than any sportster outside the Chevrolet family.

For instance they handle a lot alike. Corvette is renowned for its road-holding and cornering qualities. And we don't call Camaro The Hugger for nothing.

Another thing these two Chevrolets have in common is Astro Ventilation, which keeps the interior ventilated even with the windows up tight. (You'll notice that neither car has vent-panes — don't need them.)

And, as you'd expect in cars built for drivers, both have bucket seats and cockpit-clustered instrument panel.

But enough of this.

What you really ought to do is go see your Chevrolet dealer. He's something else Corvette and Camaro have in common.

## GROUNDHOG DAY MEANING, HISTORY, AND FOLKLORE

*Will the groundhog see his shadow this year? What is the meaning of Groundhog Day—and why do we celebrate weather predictions from a plump marmot?*

### When Is Groundhog Day 2021?

Groundhog Day always falls on February 2. This traditionally marks the midpoint between the winter solstice and spring equinox.

### Connection to the Weather

Around this time, farmers needed to determine when to plant their crops, so they tried to forecast whether there would be an early spring or a lingering winter.

Sunshine on Candlemas (February 2) was said to indicate the return of winter. Similarly, “when the wind’s in the east on Candlemas Day, there it will stick till the 2nd of May.”

It was not held as a good omen if the day itself was bright and sunny, for that betokened snow and frost to continue to the hiring of the laborers 6 weeks later on Lady Day. If it was cloudy and dark, warmth and rain would thaw out the fields and have them ready for planting.

Our Groundhog Day is a remote survivor of that belief. According to legend, if a groundhog sees its shadow on this day, there will be 6 more weeks of winter; if it doesn’t, then spring is right around the corner.

For centuries, farmers in France and England looked to a bear; in Germany, they kept their eye on the badger. In the 1800s, German immigrants to Pennsylvania brought the tradition with them. Finding no badgers there, they adopted the

groundhog to fit the lore. Pennsylvania’s Punxsutawney Phil has announced spring’s arrival since 1887. Other groundhogs also have carried on the tradition, including Ontario’s Wiarton Willie.

Though we recognize that animal behavior isn’t the only way to judge planting dates, the tradition continues, often with a wink and a smile.

**SO, WILL THE GROUNDHOG SEE HIS SHADOW?**

*It depends on whether February 2 is sunny or cloudy!*

**Well, the groundhog saw its shadow.  
So it looks like 6 more weeks of winter.**
