# DIRECTOR'S MESSAGE

GEORGE T. EDWARDS, Foothill Region Director 2020-2021

Happy March this year. I personally will have been vaccinated from this virus when you read this letter.

March is the expectation month. The expectation of all of the sport fans to see all of the Basket Ball games call "March Madness," the expectation of going out and not get blown into the next city. Last is the expectation of just having a better day than the day before.

Take care everyone and be safe,

George Edwards  
Director

## DAYLIGHT SAVING TIME

In March, we spring forward. How did this practice of Daylight Saving Time (DST) begin? *The Old Farmer's Almanac* (around since 1792) answers your questions.

### What Is Daylight Saving Time?

Daylight Saving Time is the practice of changing the clocks forward one hour from standard time during the summer months, and changing them back again in the fall. The general idea is that this allows us all to make better use of natural daylight; however, DST has many detractors.

Note that it's called "Daylight Saving" (not "Savings"). OK, now that that's out of the way ...

### When Is Daylight Saving Time 2021?

When do we set our clocks forward?

Daylight Saving Time begins on Sunday, March 14, at 2:00 A.M. Remember to "spring ahead" and set your clocks forward 1 hour (i.e., losing 1 hour). (We do this on Saturday night when we go to bed.)

### When Do We Set Our Clocks Back?

Daylight Saving Time ends on Sunday, November 7, at 2:00 A.M. Now, we "fall back" by setting our clocks back 1 hour (i.e., regaining 1 hour).

(The exceptions to DST are American Samoa, most of Arizona, Guam, Hawaii, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.)

### Why Is There Daylight Saving Time?

Here's the short history of this phenomenon ...

Credit for Daylight Saving Time is often attributed to Benjamin Franklin, who suggested the idea in 1784 as a joke. British-born New Zealander George Hudson proposed the concept in 1885 but was ridiculed. The idea was revived in 1907, when William Willett, an Englishman, proposed a system in the pamphlet *The Waste of Daylight*.

The Germans were the first to officially adopt the light-extending system in 1915 as a fuel-saving measure during World War I. The British switched one year later, and the United States followed in 1918, when Congress passed the Standard Time Act, which established our time zones. This experiment lasted only until 1920, when the law was repealed due to opposition from dairy farmers (cows don't pay attention to clocks).

During World War II, Daylight Saving Time was imposed once again (this time year-round) to save fuel. Since then, Daylight Saving Time has been used on and off, with different start and end dates. Currently, Daylight Saving Time begins at 2:00 A.M. on the second Sunday of March and ends at 2:00 A.M. on the first Sunday in November.
